Medium	English	English
Year of Passing	2017	2015
Score	76.15%	93%

## PROJECTS

### E-Commerce Application|October 2024-January 2025

- Developed a full-stack Single Page Application (SPA) e-commerce platform using React, Redux and Spring Boot.
- Implemented user authentication, including signup, login, Profile update and password recovery.
- Enabled cart and wishlist management with features to add, remove, and modify items.
- Integrated order placement, email notifications, and purchase history tracking.
- Designed admin features for product management and order insights (user purchases, quantities, total price).

### Classroom Management System|May 2024-August 2024

- Built a student record management system using Spring MVC, Java, MySQL, JSP, Servlets, and Hibernate.
- Allowed administrators to add, update, and delete student records, ensuring efficient and accurate data management.

### Smart Roads for Smart City (Major)|May 2020-May 2021

- Designed an intelligent city infrastructure system integrating smart traffic lights, automated streetlight controls, and accident detection.

### RFID based prepaid Mess card (Minor)|June 2019-June 2020

- Created an RFID-based payment system to enhance the efficiency of mess transactions.
